

“EV has the right speaker and dispersion for any situation. They deliver all the output you can ask for, and they are lasting forever in these installations. As an integrator, I really love that.”

– Mike Pereira, Streamline Systems

SOUND SYSTEM SOLUTIONS BARS & CLUBS **Audio that never sleeps**

An investment that lasts

Legendary performance and reliability from two of the most trusted names in bar and club sound. We offer proven product solutions with the added value of the industry's best customer support.

Ambience is everything

Creating the right atmosphere is essential to your venue's success, and quality sound is key. Our systems deliver superior performance for every part of your property, from the foyer to the dance floor.

Controlled coverage

Achieve sonic clarity and control in the most challenging acoustical environments – such as under high ceilings and between seating and dancing areas – with installed loudspeaker systems designed specifically for bar and clubs.

Flexible options

Our extensive speaker portfolio includes ceiling, pendant, portable and surface-mount models, giving you background and foreground music options to suit every space and every budget – always with best-in-class sound quality and reliability.

Ease of use

Simple zone and level controls for installed audio systems help your staff focus on helping customers enjoy their visit. Electro-Voice solutions are quick to set up and easy to use, ensuring every room can be equipped with the sound quality you need, when and where you need it.

BARS & CLUBS

SYSTEM EXAMPLE FOR BACKGROUND & FOREGROUND AUDIO

System overview

EVID-S loudspeakers provide full-range coverage for background music in bar and patio areas. EVC loudspeakers supply more robust support for foreground music in areas such as the dance floor or performance areas.

System benefits

EVC and EVID-S can be used together to provide full audio coverage to different areas. Combine with C series amplifiers for system performance optimization via FIR-Drive presets.

Protection against excessive power and overheating through tour-grade circuitry in C series amps.

System and group control and supervision through easy-to-use system software.

ELECTRO-VOICE | LOUDSPEAKERS

~4x (add as needed) EVID-S5.2T (background)

4x EVC-1152 (tops)

6x EVC-1181S (subs)

DYNACORD | AMPLIFIERS

1x C1800FDi (background - tops)

1x C2800FDi (foreground - tops)

1x C3600FDi (foreground - subs)

If you need it, we've got it

Electro-Voice offers the industry's most complete portfolio of installation-dedicated loudspeaker solutions, with acoustically and aesthetically matched surface-mount, ceiling-mount, pendant-mount and flush-mount models for spaces of every size and shape, indoors or outdoors.

Models from each series may be mixed and matched for consistent performance across any application, providing system designers with complementary building blocks to address the needs of a wide range of venues and acoustical challenges.
